

Vision & Strategy

MISSION

Culture Vannin's mission is to take our culture forward in the Isle of Man, in line with our founding legislation, the Manx Heritage Foundation Act 1982.

VISION

Our vision is of an Isle of Man that is confident and articulate in its cultural identity. We recognise a dynamic and living culture as key to an understanding of who we are as a people, informing the ways that we relate to each other within our communities and to how our image is projected internationally. A rich cultural offering makes the Isle of Man a more attractive place to live and shows how we, as a nation, choose to define our world.

We will deliver this through:

- **Communication:** engaging with a broad spectrum of people through multi-media to promote Manx culture as widely as possible.
- **Community activity:** promoting our culture throughout the community, organising and supporting festivals, events and workshops.
- **Creativity and innovation:** putting creativity at the heart of our work through commissions, collaborations and innovative thinking.
- **Education:** developing educational resources and teaching for all ages to inspire lifelong learning and discovery.
- **Funding:** providing funding for a wide range of projects connected to the Island and its people.
- **Recording:** making a record of our changing Island and its communities through photography, film, oral history recordings, etc.
- **Research:** supporting, developing and disseminating research in order to deepen understanding.

POLICY
